Global Leaders
in Wound Care

A fit for every need

BSN Medical was created by a fusion of Beiersdorf Medical and Smith & Nephew products. The name stands for brands with a long history that you are familiar with and have come to trust. BSN Medical combines the experience, consistent quality, dependable service and innovative strength born of two global players with long traditions in the worldwide healthcare market.

● BSN Medical is a leading manufacturer in three business units – Orthopaedics, Compression Therapy (JOBST) and Wound Care.

● BSN Medical has a workforce of over 3,000 employees worldwide and offices in over 33 countries.

● BSN Medical applies more casts, splints and bandages than any other company in the world.

Leukomed® T Waterproof Adhesive Transparent Sterile Film

Leukomed® T is a sterile, breathable, waterproof, transparent film dressing designed to cover catheter or wound sites while providing a barrier to external contaminants such as bacteria, blood and body fluids.

LEUKOMED® T - WATERPROOF TRANSPARENT STERILE FILM (Hospital Pack)

Dimensions	Code	Box Contents	Selling Unit
7.2 cm x 5 cm	7238100	50 dressings	Box
8 cm x 10 cm	7238101	50 dressings	Box
10 cm x 12.5 cm	7238108	50 dressings	Box
11 cm x 14 cm	7238102	50 dressings	Box
10 cm x 25 cm	7238114	50 dressings	Box
15 cm x 20 cm	7238109	50 dressings	Box
15 cm x 25 cm	7238110	50 dressings	Box

LEUKOMED® T - WATERPROOF TRANSPARENT STERILE FILM (Retail Pack)

Dimensions	Code	Box Contents	Selling Unit
7.2 cm x 5 cm	7238103	5 dressings	Box
8 cm x 10 cm	7238104	5 dressings	Box
10 cm x 12.5 cm	7238111	5 dressings	Box

FEATURES AND BENEFITS

- Permeable to water vapor and oxygen
- Sterilized film provides easy visibility without removing the dressing
- Waterproof and bacteria proof
- Rounded edges prevent dressing from curling up
- Sterile
- Latex Free

Improved!

- MVTR doubled
- Thinner substrate
- Better adhesion

INDICATIONS

- For use over catheter sites and devices
- To cover superficial wounds
- To cover wound after surgery
- Sterile fixation of wound dressings

Leukomed® IV Waterproof Adhesive Transparent Sterile Film for IV

When it comes to safety and reliability, choose Leukomed® I.V. film for securing I.V. catheters and cannulae.

This I.V. dressing is completely transparent, bacteria proof and offers excellent adhesive properties.

LEUKOMED® IV - ADHESIVE TRANSPARENT STERILE FILM FOR IV

Dimensions	Code	Box Contents	Selling Unit
6 cm x 8 cm	7239000	50 dressings	Box
8.5 cm x 11.5 cm	7239003	50 dressings	Box
4.5 cm x 4.5 cm	7239004	50 dressings	Box
7 cm x 9 cm	7239005	50 dressings	Box

FEATURES AND BENEFITS

- High level of therapeutic reliability for patient and user
- Protects the puncture point from water and bacteria
- Completely transparent
- Breathable and permeable to water vapor
- Sterile
- Latex Free

INDICATION

- For securing peripheral I.V. catheters and cannulae

Improved!

- MVTR doubled
- Thinner substrate
- Better adhesion

Hypafix® transparent

Waterproof Adhesive Transparent Non Sterile Film (Roll Format)

The innovative waterproof film of Hypafix® transparent is very thin and stretchable while maintaining superior strength and durability. It also feels soft and adapts well to the body contours like a second skin.

Improved!

- MVTR doubled
- Thinner substrate
- Better adhesion

HYPAFIX® TRANSPARENT – ADHESIVE TRANSPARENT NON STERILE FILM

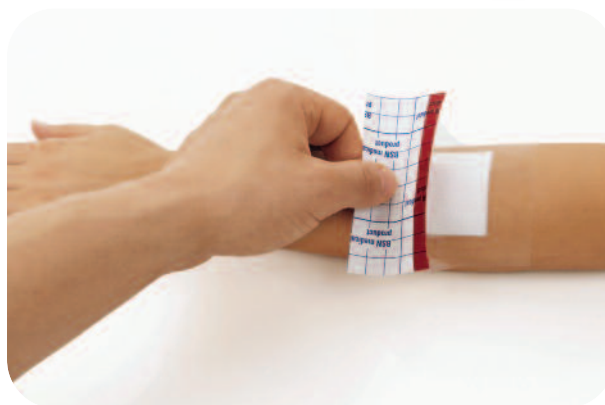

Dimensions	Code	Box Contents	Selling Unit
5 cm x 10 m	7237800	1 roll	Box
10 cm x 10 m	7237801	1 roll	Box
15 cm x 10 m	7237802	1 roll	Box

FEATURES AND BENEFITS

- Protection against external factors
- Bacterial barrier
- Permeable from the inside
- Waterproof
- Easy to apply with the red stripe system
- Robust
- Convenient roll format
- Latex Free

INDICATIONS

- Skin protection against friction and shearing
- Non sterile waterproof fixation of dressings, catheters, cannulae, patches and ointment

Hypafix® / Cover-Roll® stretch

Non-Woven Adhesive Fixation Sheet

Hypafix® and Cover-Roll® stretch are the same product under two different names. This bandage is a wide-area fixation dressing, widely used in place of surgical tapes to secure and retain primary dressings on surgical or wound sites. This latex-free bandage provides light compression without causing constriction for joints and highly contoured parts of the body. Convenient and easily cut to size, eliminating unnecessary waste.

HYPAFIX® - NON-WOVEN ADHESIVE TAPE

Dimensions	Code	Box Contents	Selling Unit
2.5 cm x 10 m	7144300	1 roll	Box
5 cm x 10 m	7144301	1 roll	Box
10 cm x 10 m	7144302	1 roll	Box
15 cm x 10 m	7144303	1 roll	Box
20 cm x 10 m	7144304	1 roll	Box

COVER-ROLL® STRETCH - NON-WOVEN ADHESIVE TAPE

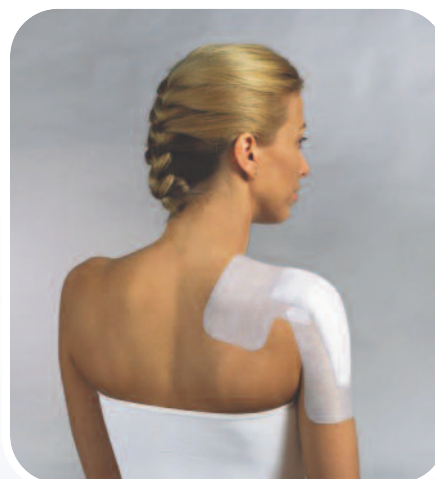

Dimensions	Code	Box Contents	Case Contents	Selling Unit
5 cm x 1.8 m	4554700	1 roll	12 boxes	Case
10 cm x 1.8 m	4554800	1 roll	12 boxes	Case
15 cm x 1.8 m	4554900	1 roll	12 boxes	Case
20 cm x 1.8 m	4555000	1 roll	12 boxes	Case
30 cm x 1.8 m	4555100	1 roll	12 boxes	Case

FEATURES AND BENEFITS

- Soft, stretchable non-woven polyester adapts well to the body
- Provides light compression without causing constriction
- Polyacrylate adhesive holds dressing safely, even in the presence of moisture
- Easily cut to eliminate waste
- Latex Free

INDICATIONS

- Retains primary dressing on small to large surgical or wound sites
- Ideal use for areas of body requiring flexibility such as elbows and knees
- Ideal base coverage for areas applying the patellofemoral taping technique

Leukoplast® Slek / Leukoplast® Slek LF

Zinc Oxide Plastic Waterproof Adhesive Fixation Tape (Pink Tape)

Often referred to as sleek or pink tape, Leukoplast® Slek is indicated for any situation where a reliable and conformable waterproof tape is required (for holding tubes or tracheotomy). Leukoplast® Slek is easy to unroll, easy to apply and can stay on for hours and days. This tape resists sweat, grease, oil and water.

Available in both latex and latex free versions.

LEUKOPLAST® SLEEK – PLASTIC WATERPROOF ADHESIVE FIXATION TAPE

Dimensions	Code	Box Contents	Selling Unit
2.5 cm x 3 m	7237907	12 rolls	Box
5 cm x 3 m	7237906	6 rolls	Box

LEUKOPLAST® SLEEK LF – PLASTIC WATERPROOF ADHESIVE FIXATION TAPE (Latex Free)

Dimensions	Code	Box Contents	Selling Unit
2.5 cm x 3 m	7235906	12 rolls	Box
5 cm x 3 m	7235907	6 rolls	Box
2.5 cm x 3 m	7235908	10 spools	Box
5 cm x 3 m	7235909	5 spools	Box

FEATURES AND BENEFITS

- Waterproof adhesive
- Strong & reliable
- Slight stretch which allows the tape to mould to body contours
- Leukoplast® Slek LF is Latex Free

INDICATIONS

- Fixation of dressings
- Fixation of tubes (E.T., gastric, etc.)

Easifix® Superior Quality Non-Adhesive Fixation Bandage

Easifix® is a durable fixation bandage, highly elastic and very comfortable. Easifix® helps to secure fixation even for awkward physical contours; it causes no restriction to functional movement or blood circulation.

EASIFIX® - SUPERIOR NON-ADHESIVE FIXATION BANDAGE

Dimensions	Code	Bag Contents	Selling Unit
2.5 cm x 4 m*	7196101	20 rolls	Bag
5 cm x 4 m*	7142910	20 rolls	Bag
7.5 cm x 4 m*	7143003	20 rolls	Bag
10 cm x 4 m*	7142804	20 rolls	Bag
15 cm x 4 m*	7142911	20 rolls	Bag

* Stretched length

FEATURES AND BENEFITS

- Light, soft and permits air circulation, minimizing the risk of maceration
- Well tolerated by the skin
- Autoclavable
- Durable elasticity, high recovery strength
- Latex Free

INDICATIONS

- Fixation of wound dressings
- Under padding for compression bandage

6

Easifix® Cohesive Self-Adhesive Fixation Bandage

Easifix® Cohesive has remarkable body molding properties and conforms to awkward bony prominences without impairing movement.

The cohesive coating ensures that the bandage sticks only to itself and not the patient's skin or clothing. The bandage can be reapplied to the same patient, thus permitting routine wound inspection.

EASIFIX® COHESIVE - SELF-ADHESIVE FIXATION BANDAGE

Dimensions	Code	Box Contents	Selling Unit
4 cm x 4 m*	7143609	10 rolls	Box
6 cm x 4 m*	7143610	10 rolls	Box
8 cm x 4 m*	7143611	10 rolls	Box
10 cm x 4 m*	7143612	10 rolls	Box
12 cm x 4 m*	7143613	10 rolls	Box
4 cm x 20 m*	7143614	1 roll	Box
6 cm x 20 m*	7143615	1 roll	Box
8 cm x 20 m*	7143616	1 roll	Box
10 cm x 20 m*	7143617	1 roll	Box
12 cm x 20 m*	7143618	1 roll	Box

* Stretched length

FEATURES AND BENEFITS

- Economical 20 m roll format
- Lightweight construction
- Non-slip dressing retention
- Allows moisture vapor permeability

INDICATIONS

- Fixation of wound dressings
- Retention of splinting system
- Retention of compression bandages

Elastomull®

Non-Adhesive Elastic Fixation Bandage

Elastomull® offers a precision fit, even in areas where there is constant movement such as the elbow or knee. Superior performance and stretchability in controlling bleeding or edema. It has a high cotton content and is virtually lint-free, reducing risk of particle contamination.

ELASTOMUL® - ELASTIC FIXATION BANDAGE - NON-STERILE

Dimensions	Code	Box Contents	Selling Unit
4 cm x 4 m*	2099	20 rolls	Box
6 cm x 4 m*	2100	20 rolls	Box
8 cm x 4 m*	2101	20 rolls	Box
10 cm x 4 m*	2102	20 rolls	Box
12 cm x 4 m*	2103	20 rolls	Box

* Stretched length

FEATURES AND BENEFITS

- Highly elastic
- Particularly skin friendly
- Comfortable for the patient
- Autoclavable
- Latex Free

INDICATIONS

- Fixation of wound dressings
- Under padding for compression bandages

Leukomed® Non-Woven Adhesive Sterile Dressing with Absorbent Pad

Leukomed® adhesive dressing is composed of an acrylic adhesive and non-woven substrate with a highly absorbent wound pad for secreting wounds. The dressing provides a latex-free adhesive which enables easy removal, while also consisting of a non-adherent layer that prevents adhesion to the wound.

LEUKOMED® - ADHESIVE DRESSING WITH ABSORBANT PAD (Hospital Pack)

Dimensions	Code	Box Contents	Selling Unit
7.2 cm x 5 cm	7238000	50 dressings	Box
8 cm x 10 cm	7238001	50 dressings	Box
8 cm x 15 cm	7238002	50 dressings	Box
10 cm x 20 cm	7238003	50 dressings	Box
10 cm x 25 cm	7238004	50 dressings	Box
10 cm x 30 cm	7238005	50 dressings	Box
10 cm x 35 cm	7238006	50 dressings	Box

LEUKOMED® - ADHESIVE DRESSING WITH ABSORBANT PAD (Retail Pack)

Dimensions	Code	Box Contents	Selling Unit
7.2 cm x 5 cm	7238007	5 dressings	Box
8 cm x 10 cm	7238008	5 dressings	Box
8 cm x 15 cm	7238009	5 dressings	Box
10 cm x 20 cm	7238010	5 dressings	Box
10 cm x 25 cm	7238011	5 dressings	Box
10 cm x 30 cm	7238012	5 dressings	Box
10 cm x 35 cm	7238013	5 dressings	Box

FEATURES AND BENEFITS

- Good absorption capacity
- Non-adherent layer prevents wound pad from sticking to wound
- Acrylic adhesive provides safe and secure fit
- Rounded edges
- Highly conformable with two-way stretch
- Permeable to air
- Sterile
- Latex Free

INDICATIONS

- Post surgical incisions
- Moderate to heavy drainage wounds
- Pressure ulcers
- Partial and full thickness wounds
- A secondary dressing over gels, ointments

Leukomed® T plus

Waterproof Adhesive Transparent Sterile Dressing with Absorbent Pad

Leukomed® T Plus is a sterile, breathable, waterproof, transparent film dressing with a highly absorbent wound pad for secreting wounds.

LEUKOMED® T PLUS - TRANSPARENT DRESSING WITH ABSORBANT PAD (Hospital Pack)

Improved!

- MVTR doubled
- Thinner substrate
- Better adhesion

FEATURES AND BENEFITS

- Convenient, all-in-one sterile dressing
- Water and bacteria proof allowing patients to shower
- Good absorption capacity
- Coated pad prevents adhesion to wound
- Provides moist wound environment to enhance healing
- Easy to apply
- Conformable and pliable
- Sterile
- Latex Free

INDICATIONS

- Post-surgical dressings to protect wounds
- Fragile at-risk skin
- Moderate to heavy drainage wounds
- Acute wounds i.e. cuts, burns and abrasions
- Chronic wounds

Coverlet®

Stretchable Lightweight Fabric Adhesive Dressing

**LATEX
FREE**
FORMULA

Coverlet® fabric adhesive bandages are made to absorb liquid fast - faster than any of the competitors tested. Featuring an extra-large wound pad capable of absorbing 10 times its own weight in water, the 360° adhesive surrounding the island pad helps seal the afflicted area, keeping the wounds clean and providing an environment conducive to healing.

INDICATIONS

For exuding wounds such as

- First and second-degree burns
- Lacerations and abrasions
- Leg ulcers
- Donor and recipient skin graft sites

Cuticell®

Small Meshed Dressing with Non-Medicated Ointment

Cuticell® is a low-adherent, primary wound contact layer made of smooth acetate fabric impregnated with non-medicated ointment basis.

The result: an ointment dressing that ensures that the wound is not disturbed and helps maintain a moist environment that supports wound healing.

CUTICELL® – IMPREGNATED DRESSING WITH EUCERIT® (Hospital Pack)

Dimensions	Code	Box Contents	Selling Unit
7.5 cm x 7.5 cm	7253901	50 dressings	Box
7.5 cm x 20 cm	7253903	50 dressings	Box
20 cm x 40 cm	7253904	25 dressings	Box

CUTICELL® – IMPREGNATED DRESSING WITH EUCERIT® (Retail Pack)

Dimensions	Code	Box Contents	Selling Unit
7.5 cm x 7.5 cm	7253900	10 dressings	Box
7.5 cm x 20 cm	7253902	10 dressings	Box

FEATURES AND BENEFITS

- Low-adherent and soothing to minimize pain at dressing change
- Supports a moist environment to help healing
- Does not disturb wound healing
- Does not charge the wound with excess ointment
- Simple handling without release paper
- Sterile
- Latex Free

INDICATIONS

For superficial exuding wounds such as

- First and second-degree burns
- Cuts and abrasions
- Radiation injuries
- Donor and recipient skin graft sites

Cutimed® Sorbact® Antimicrobial Dressing

Cutimed® Sorbact® with its unique mode of action has proved successful as a non-medicated antimicrobial dressing for colonized and infected wounds. Pathogenic bacteria and fungi are irreversibly bound and inactivated by the wound dressing without using a chemically active agent by a physical principle known as hydrophobic interaction. Cutimed® Sorbact® reduces the microbial load and helps to create optimum conditions for the natural wound healing process.

CUTIMED® SORBACT® PADS

Dimensions	Code	Box Contents	Selling Unit
7 cm x 9 cm	7216101	5 dressings	Box
7 cm x 9 cm	7216100	40 dressings	Box

5 cm x 200 cm	7216700	10 dressings	Box

CUTIMED® SORBACT® ROUND

Dimensions	Code	Box Contents	Selling Unit
3.5 cm (round)	7216800	14 dressings	Box

FEATURES AND BENEFITS

- No chemical agent: no bacterial resistance
- No cytotoxicity and no promotion of bacterial endotoxin release
- Pain free dressing changes
- No risk of allergies and no contraindications
- Color coded box with symbols to choose the right product
- Sterile
- Latex Free

INDICATIONS

For all unclean, colonized and infected exuding wounds

- Chronic wounds, such as venous or diabetic ulcers and pressure ulcers
- Postoperative and dehiscent wounds
- Traumatic wounds
- Wounds after excision of fistulas and abscesses

Cutimed® Sorbact® Hydroactive Antimicrobial Dressing with Fluid Management

The antimicrobial wound dressing combines the effective, non-medicated Sorbact® method with self-adapting, actively responsive hydroactive properties. It not only reduces the bacterial load but also absorbs and locks wound exudate while maintaining moist wound conditions - making it the ideal choice for effective infection control for all exudate levels.

CUTIMED® SORBACT® HYDROACTIVE - ABSORBANT ANTIMICROBIAL DRESSING

Dimensions (wound pad)	Code	Box Contents	Selling Unit
7 cm x 8.5 cm (5 x 6.5)	7264603	10 dressings	Box
14 cm x 14 cm (10 x 10)	7264604	10 dressings	Box
19 cm x 19 cm (15 x 15)	7264605	10 dressings	Box
24 cm x 24 cm (20 x 20)	7264606	5 dressings	Box
14 cm x 24 cm (10 x 20)	7264607	10 dressings	Box

INDICATIONS

All contaminated, colonised or infected wounds with low to high exudate levels

- Chronic wounds, such as venous or diabetic ulcers and pressure ulcers
- Postoperative and dehiscent wounds
- Traumatic wounds

FEATURES AND BENEFITS

Self-adapting fluid management for all exudate levels

- Absorbs and locks exudate in the hydropolymer core
- Prevents maceration
- Permeable to water vapour

Atraumatic, painless dressing changes

- Cushions and protects the wound
- Conforms to the wound bed
- Does not stick to the wound

Cutimed® Sorbact® Hydroactive

Cutimed® Sorbact® gel

Antimicrobial Dressing Impregnated with Hydrogel

The hydrogel impregnated Cutimed® Sorbact® gel dressing reduces the bacterial load with the tested and proved Sorbact® method while providing moist wound conditions. Cutimed® Sorbact® gel cleanses the wound from slough and necrotic tissue and promotes wound healing.

CUTIMED® SORBACT® GEL – ANTIMICROBIAL DRESSING IMPREGNATED WITH HYDROGEL

Dimensions	Code	Box Contents	Selling Unit
7.5 cm x 7.5 cm	7261100	10 dressings	Box
7.5 cm x 15 cm	7261101	10 dressings	Box

FEATURES AND BENEFITS

- Promotes autolytic debridement in sloughy or partly necrotic wounds
- Creates a moist wound environment
- Does not use any preservatives or chemically active agents
- Offers all the other advantages of Cutimed® Sorbact®
- Sterile
- Latex Free

INDICATIONS

For dry to low exuding or sloughy, also partly necrotic, wounds

- Postoperative and dehiscent wounds
- Traumatic wounds
- Wounds after excision of fistulas and abscesses

Sorbact® gel

Cutimed® Gel

Transparent Amorphous Hydrogel

Cutimed® Gel is a clear, amorphous hydrogel for necrotic and sloughy tissue in chronic wounds.

CUTIMED® CAVITY – ABSORBANT FOAM DRESSING FOR DEEP WOUNDS

Dimensions	Code	Box Contents	Selling Unit
Tube 8 g	7261000	10 tubes	Box
Tube 15 g	7261001	10 tubes	Box
Tube 25 g	7261002	10 tubes	Box

FEATURES AND BENEFITS

- Pure formulation: less risk of allergic reaction
- Compatible with secondary dressings
- Superior moisture donation allows for less frequent dressing changes and effective debridement
- Color coded box with symbols to choose the right product
- Sterile
- Latex Free

INDICATIONS

- Supports autolytic debridement in necrotic and sloughy wounds
- Provides moisture to dry wounds, even in later stages of wound healing

Gel

Cutimed® Cavity

Absorbant Foam Dressing for Deep Wounds

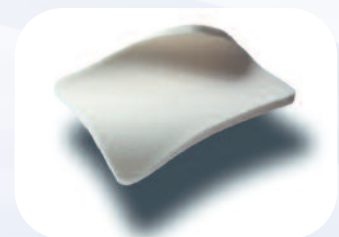

Cutimed® Cavity is a sterile wound dressing, made from hydrophilic absorbent polyurethane foam. It is soft, highly absorbent and conformable, creating the ideal environment for moist wound healing.

CUTIMED® CAVITY – ABSORBANT FOAM DRESSING FOR DEEP WOUNDS

Dimensions	Code	Box Contents	Selling Unit
5 cm x 6 cm	7262100	10 dressings	Box
10 cm x 10 cm	7262101	10 dressings	Box
15 cm x 2 cm	7262102	10 dressings	Box
15 cm x 15 cm	7262103	5 dressings	Box

FEATURES AND BENEFITS

- Atraumatic
- Non-adhesive
- Soft and conformable
- Easy to apply and remove
- Highly absorbent
- Color coded box with symbols to choose the right product
- Sterile
- Latex Free

INDICATIONS

- Pressure ulcers
- Wounds after excision of fistulas and abscesses
- Deep wound areas, e.g. in venous leg ulcers, diabetic ulcers, trauma wounds and postoperative, dehiscent wounds

Cavity

Cutimed® Siltec

Superabsorbant Foam Dressing with Silicone Layer

Cutimed® Siltec has been developed to facilitate exudate management. On the one hand, the silicone layer provides for gentle adherence to the surrounding skin and minimum discomfort when changing the dressing. Newly formed tissue enjoys optimal protection under a moist environment. On the other hand, the foam core with super-absorbers ensures reliable absorption in slightly to heavily exuding wounds. Moreover, this core has an excellent retention capacity, even under compression.

CUTIMED® SILTEC – SUPERABSORBANT FOAM DRESSING

Dimensions	Code	Box Contents	Selling Unit
5 cm x 6 cm	7263200	10 dressings	Box
10 cm x 10 cm	7263201	10 dressings	Box
10 cm x 20 cm	7263202	10 dressings	Box
15 cm x 15 cm	7263203	10 dressings	Box
20 cm x 20 cm	7263204	5 dressings	Box

FEATURES AND BENEFITS

- Cushioning effect
- Silicone layer: painfree and atraumatic dressing changes
- Protects newly formed skin
- Superabsorbers that reliably retain wound exudate even under compression
- Permeable to water vapour
- Color coded box with symbols to choose the right product
- Sterile
- Latex Free

INDICATIONS

For moderately to highly exuding wounds

- Venous leg ulcers
- Diabetic ulcers
- Arterial ulcer
- Skin grafts

Siltec

16

Cutimed® Siltec B

Superabsorbant Foam Dressing with Adhesive Border with Silicone Layer

CUTIMED® SILTEC B – SUPERABSORBANT FOAM DRESSING WITH ADHESIVE BORDER

Dimensions	Code	Box Contents	Selling Unit
7.5 cm x 7.5 cm	7263100	10 dressings	Box
12.5 cm x 12.5 cm	7263101	10 dressings	Box
15 cm x 15 cm	7263102	10 dressings	Box
17.5 cm x 17.5 cm	7263103	5 dressings	Box
22.5 cm x 22.5 cm	7263104	5 dressings	Box

Siltec B

FEATURES AND BENEFITS

- All-round reliable, yet skin-friendly adhesive border
- Offers all the other advantages of Cutimed® Siltec
- Sterile
- Latex Free

INDICATIONS

For low to moderate exudate levels

- Venous leg ulcers
- Diabetic ulcers
- Arterial ulcer
- Skin grafts

Cutimed® Siltec L

Superabsorbant Foam Dressing for Low Exudative Wounds with Silicone Layer

CUTIMED® SILTEC L – SUPERABSORBANT FOAM DRESSING FOR LOW EXUDATIVE WOUNDS

Dimensions	Code	Box Contents	Selling Unit
5 cm x 6 cm	7263000	10 dressings	Box
10 cm x 10 cm	7263001	10 dressings	Box
15 cm x 15 cm	7263002	10 dressings	Box

FEATURES AND BENEFITS

- Thinner absorbant foam dressing
- Offers all the other advantages of Cutimed® Siltec
- Sterile
- Latex Free

INDICATIONS

For low to moderate exudate levels

- Venous leg ulcers
- Diabetic ulcers
- Arterial ulcer
- Skin grafts

SIZING CHART FOR STOCKINGS AND COMPRESSION LINERS

SIZE	ANKLE 	CALF 
S	18 - 21 cm (7" - 8 1/4")	29 - 35 cm (11 1/2" - 13 3/4")
M	21 - 24 cm (8 1/4" - 9 1/2")	34 - 41 cm (13 1/4" - 16")
L	24 - 37 cm (9 1/2" - 10 3/4")	40 - 47 cm (15 3/4" - 18 1/2")
XL	27 - 30 cm (10 3/4" - 12")	46 - 54 cm (18" - 21 1/4")
XXL	30 - 33 cm (12" - 13")	48 - 56 cm (19" - 22")

FEATURES AND BENEFITS

- Ready-to-wear therapeutic gradient compression system
- Easy and convenient to use, designed for maximum patient compliance
- The medical stocking and the liner provide nominal compression of 40 mmHg
- Liner contains silk for temperature regulation, reduced skin irritation and breathing properties
- Latex Free

INDICATIONS

- Venous leg ulcers

CompriFoam® Open Cell Foam Bandage

CompriFoam® open cell foam bandage is designed to evenly distribute the pressure from compression bandages over extremities, thus preventing constrictions and ensuring an effective compression therapy. The non-slip texture of the foam also makes applying the compression bandage (e.g. Comprilan®) easier.

COMPRIFOAM® - OPEN CELL FOAM BANDAGE

Dimensions	Code	Box Contents	Case Contents	Selling Unit
10 cm x 2.5 m x 0.4 cm	7529400	1 roll	24 boxes	Case
12 cm x 2.5 m x 0.4 cm	7529500	1 roll	16 boxes	Case

INDICATIONS

- Padding under compression bandages for phlebological and lymphological indications
- Padding material under plaster and synthetic casts

FEATURES AND BENEFITS

- 100% polyurethane
- Air and moisture permeable
- Non-sliding — the interlocking open pores assure the bandage is secure and will not slip
- Tear resistant
- Easy for patients to self bandage as it does not crease
- Anatomically conforming allowing freedom of movement
- Resistant to body oils, lotions, and perspiration
- Reusable
- May be steam sterilized
- Latex Free

Comprilan® Short Stretch Compression Bandage

Comprilan® is a short stretch compression bandage made from 100% cotton and is specifically designed for the management of venous leg ulcers, lymphedema and edema. Unlike long stretch bandages, Comprilan® provides both compression and high resistance to stretch to increase venous and lymphatic return.

COMPRILAN® - SHORT STRETCH COMPRESSION BANDAGE

Dimensions	Code	Box Contents	Selling Unit
4 cm x 5 m	7718700	1 roll	Box
6 cm x 5 m	0102600	1 roll	Box
8 cm x 5 m	0102700	1 roll	Box
10 cm x 5 m	0102800	1 roll	Box
12 cm x 5 m	0102900	1 roll	Box
10 cm x 10 m	7718800	1 roll	Box
12 cm x 10 m	7718900	1 roll	Box

FEATURES AND BENEFITS

- Interlocking weave provides short stretch to ensure consistent compression
- Anatomically conforming allowing freedom of movement
- Provides high working pressure and low resting pressure
- Easy-care and durable, Comprilan® can be washed and reused
- 100% cotton bandage, cool and light, the open weave fabric allows the skin to breathe
- Latex Free, except for clips

INDICATIONS

- Venous leg ulcers
- Venous insufficiency
- Edema
- Lymphedema
- Thrombophlebitis
- Post sclerotherapy

Tensopress® Long Stretch Compression Bandage

Tensopress® is a technically advanced cotton-rich warp-knitted compression bandage incorporating a blend of cotton, viscose and elastomeric yarns. It delivers measured, safe, sub bandage pressure for the treatment of venous leg ulcers through increasing blood flow velocity and improving venous return.

TENSOPRESS - LONG STRETCH COMPRESSION BANDAGE

Dimensions	Code	Box Contents	Selling Unit
7.5 cm x 3 m	7172301	1 roll	Pack of 10 boxes
10 cm x 3 m	7172300	1 roll	Pack of 10 boxes

FEATURES AND BENEFITS

- Soft edges prevent cutting in and high cotton content reduces the risk of irritation or discomfort
- Comfortable to wear
- Washable
- Sustained, even and consistent compression for up to eight days
- Central green line which guides and simplifies precise and even application

INDICATIONS

- Venous leg ulcers
- Venous insufficiency
- Deep vein thrombosis
- Compression of stumps

Artiflex® Non-Woven Padding Bandage

Artiflex® is a multipurpose padding bandage that ensures even distribution of pressure as in phlebological or lymphedema applications. Also useful as under padding of plaster or synthetic casts.

ARTIFLEX® NON-WOVEN PADDING BANDAGE

Dimensions	Code	Box Contents	Selling Unit
10 cm x 3 m	09046	30 rolls	Box
15 cm x 3 m	09047	20 rolls	Box

FEATURES AND BENEFITS

- Non-woven padding 40% polyester, 40% polypropylene, 20% polyethylene
- Non-absorbent, so padding effect is not compromised even in humid conditions
- Applies easily without creasing
- Provides added comfort in wrapping for lymphedema
- Inert synthetic fiber minimizes risk of skin reaction
- Easy to apply, Artiflex does not mat or stick together
- Air-permeable, eliminates skin maceration and is well tolerated by the skin
- Autoclavable at 120°C when sterile application is required
- Latex Free

INDICATIONS

- Even distribution of pressure in phlebological and lymphedema applications
- Under padding of plaster or synthetic casts

Tricofix® Tubular Mesh Bandage

Tricofix® protects skin surface under compression, zinc gel or adhesive bandages. Also, useful as a lining for lymphedema wrapping. Made of a mesh construction for increased breathability and conformability.

TRICOFIX® - TUBULAR BANDAGE

Dimensions	Code	Box Contents	Case Contents	Selling Unit
6 cm x 20 m	02195	1 roll	10 boxes	Case
8 cm x 20 m	02197	1 roll	10 boxes	Case
10 cm x 20 m	02198	1 roll	10 boxes	Case
12 cm x 20 m	02199	1 roll	10 boxes	Case

FEATURES AND BENEFITS

- 100% cotton for non-irritative comfort
- Highly absorbent and well tolerated
- Easy application, may be cut anywhere, does not run or fray
- Both lengthwise and crosswise stretch for quick, easy application
- Conforms to joints securely and will not wrinkle or slip
- Durable and economical, may be washed for reuse
- Steam autoclavable for sterile applications
- Provides extra protection for frequent bandage changes
- Available in 4 sizes to fit a wide variety of applications
- Latex Free

INDICATIONS

- Protection of skin under compression, zinc gel or adhesive bandages
- Lining for lymphedema wrapping

Total Contact Cast® Kit

Pressure Offloading Cast for Diabetic Foot Ulcer Management

This kit contains all the components and instructions needed to make a Total Contact Cast intended to aid in the treatment of diabetic foot wounds and other indicated conditions. The Total Contact Cast® Kit is the pressure offloading "gold standard" technique made easier, combining specifically chosen casting materials to provide intimate comfortable close fit and proper pressure redistribution for an optimized healing environment.

TOTAL CONTACT CAST® KIT - PRESSURE OFFLOADING CAST

Code	Box Contents	Selling Unit
7349900	All casting materials for 1 cast	Box

FEATURES AND BENEFITS

- Increased patient compliance
- Optimized healing environment
- Standardized technique
- Convenient all-in-one kit

INDICATIONS

- Non-infected diabetic and neuropathic foot wounds
- Charcot joint injuries
- Post-op immobilization following deformity reconstruction

Wound Management in a New Light with Cutimed® Advanced Wound Care

Necrotic wounds

Necrotic tissue inhibits wound healing and must usually be removed at the start of treatment.

Cutimed® Gel facilitates and supports autolytic debridement.

Infected wounds

Wound infection and critical colonisation pose a serious barrier to the healing process.

Cutimed® Sorbact, **Cutimed® Sorbact® gel** and **Cutimed® Sorbact® Hydroactive** dressings bind and remove microbes from colonised and infected wounds without any undesirable side effects.

Sloughy wounds

Slough is a mixture of rehydrated necrotic tissue, dead bacteria and dead leucocytes. **Cutimed® Gel** removes slough and the fibrin layers and **Cutimed® Sorbact® gel** additionally reduces the bacterial load in the wound.

Granulating wounds

Heavily exuding wounds require professional fluid management. **Cutimed® Siltec** and **Cutimed® Cavity** are not only highly absorbent, they are also painless to remove and protect the newly formed tissue.

Epithelialising wounds

In the final stage of wound healing **Cutimed® Siltec** provides best possible protection for fragile skin.

wound bed preparation

exudate management

Value Added

In addition to the highest quality products and service, BSN Medical has an ongoing commitment to ensure a comprehensive range of training and education options based on customer need. Our programs are designed to optimize educational support so that resources supporting our products are equipped with the latest clinical techniques and cost-effective use. Training is offered in a variety of forms including hands-on workshops, in-services and educational material.

Multiple Solutions for Health Care Providers:

- **Wound Care**
- **Physiotherapy**
- **Fracture Management**
- **Compression Therapy**
